## SKILLS

---

- JavaScript
- React.js
- HTML
- CSS
- SQL
- Tailwind CSS
- GraphQL
- Firebase
- jQuery
- Bootstrap
- Git/Github
- Figma

## EDUCATION

---

### Mimo Dev Bootcamp

Jan 2023 - Jul 2023

- Completed software programming course with a focus on front-end web development.
- Acquired technical skills and practical experience in building high-quality web applications and user interfaces through group and individual projects.

### The Odin Project

Aug 2022 - Dec 2022

- Learned the fundamentals of HTML and CSS to build static websites through hands-on projects.
- Gained experience using Git for version control and engaging in effective coding collaboration with teams.

## PROJECTS

---

### Motion Blurr

- Integrated Firebase for CRUD operations and authentication to securely manage user access.
- Effectively utilized React skills in components, state management, and event handling.
- Developed a Firebase solution for managing data, including storing and retrieving user data.

### UniLife Housing

- Built responsive single-page application in React with routing for seamless navigation experience.
- Utilized conditional rendering and React hooks to asynchronously fetch data from an API.
- Leveraged context API for global state management to display favorite housing selections.

### Looking Good Landscaping

- Collaborated with a developer to enhance functionality and optimize user engagement through a site redesign.
- The application was configured, including hosting, domain setup, and deployment settings.
- Implemented responsive web design and ensured cross-browser compatibility.

### Bibliophily

- Drove project development as lead, delegating tasks to each member based on their strengths and areas for growth to maximize productivity.
- Evaluated all pull requests and assessed which code submissions were eligible for integration into the main branch.
- Retrieved data from Google Books API and efficiently converted it to JSON for seamless website integration

## WORK EXPERIENCE

---

### Sench Systems - Remote

Aug 2023 - Current

- Implemented Agile methodologies to streamline work processes and align with company objectives.
- Enhanced website functionality and security through the development of authentication and error-handling solutions.

### Olive Garden - Rock Hill, SC

Jan 2017 - Current

- Achieved a 98% satisfaction rate among guests for over 3 years, ranking #1 in the region.
- Showcased strong organizational skills by coordinating catering setups for a variety of events.

### Jcpenny - Rock Hill, SC

Oct 2016 - Jan 2017

- Demonstrated strong sales performance by ranking in the store's top 25% for daily credit card sign-ups.
- Fluent in Spanish, enhancing the ability to engage with a diverse customer base and provide exceptional service.
